

BEST-IN-CLASS SEMICONDUCTORS. TOTAL SOLUTIONS PARTNER.

MCC is a proven global leader, delivering high-quality discrete semiconductors in Industrial, Automotive, Personal Computing, and beyond.

WHY WORK WITH MCC?

We're set up to help you win.

Global support network

From six established manufacturing and distribution sites to knowledgeable sales and support offices on three continents, our team is here to empower your success.

Ongoing investment & innovation

In 2022, we allocated 20.7% to capital investments, increased our R&D spending, and doubled wafer capacity to meet rising demand.

Diverse, high-quality portfolio

With 10,000+ components and counting, we are your single source for diodes, IGBTs, MOSFETs, power modules, SiCs, transistors, and power TVs.

Competitive pricing

We maximize efficiencies at every stage to provide high-quality products at a lower cost.

Seamless communications

MCC invested in digital tools and resources to streamline communications and help you get to market faster.

Industry leading lead times

Our components are available when you need them, and we have one of the best lead times in the industry.
